

PROFESSIONAL LAKE MICHIGAN CHARTER FISHING GUIDE

CAPTAIN RALPH STEIGER

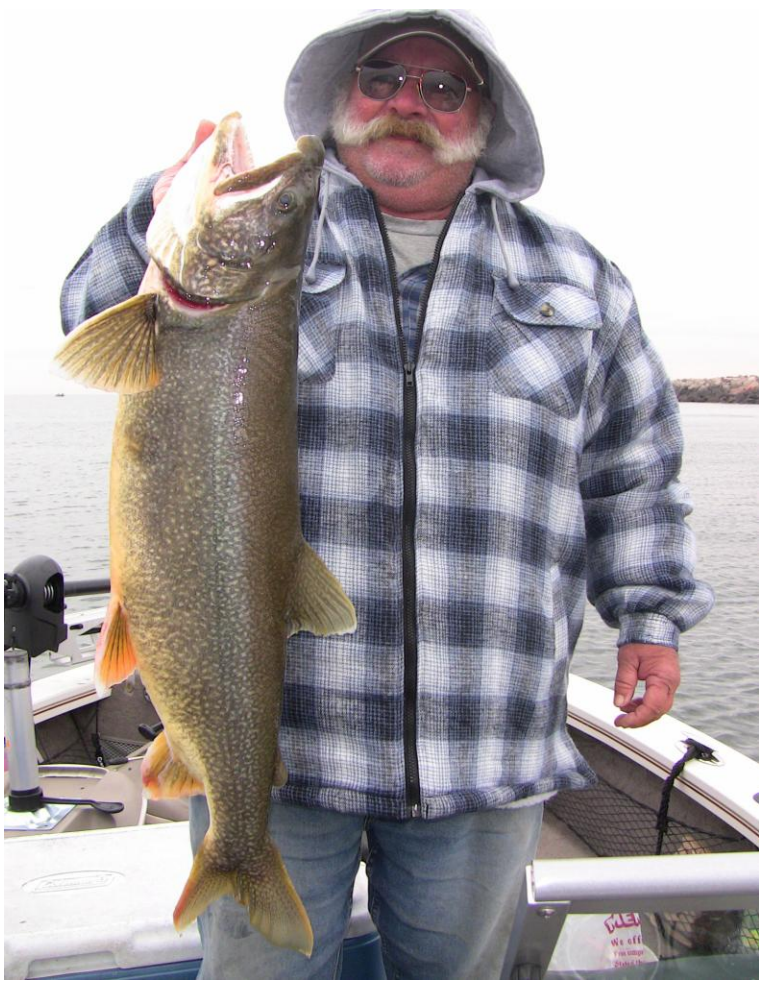

In November something special happens in Indiana. Thousands and thousands of big Lake Trout return to the shoreline to spawn.

This is some of my favorite fishing of the year. I like this type of fishing so much because we are in shallow water, the ability to catch huge numbers of monster fish, and being able to release these fish so they can fight another day. When I say huge numbers I mean it. On a good day we can land 30-40 lake trout in the 12-22 pound range. Even an average day can produce 15-20 lake trout. The other bonus to this type of fishing is the consistency. There aren't many slow days. The limit on lake trout is only two per person. I also run rods for bonus steelhead this time of year. The added steelhead makes for an exciting day.

Most of the time we are in 16-22 ft of water. We spend most of the time trolling light walleye rods with light line at very slow speeds. By using the light rods you get a awesome fight. Expect lots of double and triple fish on at one time. Casting also works but conditions have to be perfect. We are lucky to have this type of fishing available to us. If you are a avid fisherman you have to try this it's unbelievable. If you are just starting out fishing this will spoil you big time!!

Dates are very limited this is a 2-3 week season starting the first week of November. Dates will be all filled extremely fast. If you are interested call me as soon as possible. Only full day trips are available.

Thanks, Ralph Steiger
